

Essence Portraits by Sofanya

Watch your inner landscape unfold in brilliant moving colors & patterns, revealing a multi layered portrait imbued with valuable information, inspiration, and guidance relevant to your Life.

The Process begins with a short Meditation where Sofanya senses your Colors.

The inks are dropped into the moistened paper. You'll Breathe into the moving river of colors infusing the paint with your intention and your Presence.

Relax into the moment while Sofanya draws your likeness into the brilliant patterns of colors. She will share her interpretation of the images appearing in the color patterns as you view the painting together. You are sure to find more inspiration and information any time you gaze into your Essence Portrait

This is a wonderful treasure to keep while marking a pivotal time in your Life or celebrating an important occasion.

Individuals....Couples....Families....Pets

Email, text or call for an appointment at Sofanya's Dome Studio & Gallery (or email a photo....painting to be mailed within 2 weeks)
